Katy Perry's 'E.T.' Video: Makeup Artist Kabuki Tells All!

Mar 31, 2011 @ 11:45 am

Katy Perry's new music video for her single **"E.T."** debuted today **online**, and she totally transformed herself from mortal to alien for the clip! So, who is responsible for her otherworldly look? That would be **makeup artist Kabuki** (inset), who most recently honed his futuristic primping skills as a makeup consultant on *Tron: Legacy*. The cosmetics genius developed three styles for the video: Alien, Fawn and Tribal. **"The three looks are like three aspects of the extraterrestrial,"** Kabuki told *InStyle*. **"I was very happy about the way Katy's face suited the makeup, she really brought it to life. When you see it on her, it's not a mask. She really comes through."** Perry's fans are so excited about the new look, they started **posting video tutorials** for how to recreate the makeup, and Kabuki is flattered by the support. **"I think it's great that they're excited about it! They understand that participating is what pop culture is all about. It's about feeling that you're a part of something."** **Find out how Kabuki transformed Perry into intergalactic pop star in the gallery!**

Runway Beauty Looks We Love: Zac Posen

Sep 10, 2012 @ 3:47 pm

From the lush lashes, to the bold face-framing brows, the look at **Zac Posen's Spring 2013 show** was pure Hollywood glamour. "I took inspiration from a black and white photo of **Lena Horne taken in the 1960s**," said makeup artist Kabuki, who used **MAC** products to create the sultry look. "The image captured her unique blend of strength and delicacy, echoing the play between structure and softness in Posen's collection." While many runway looks are hard to translate into real-life, Posen's is the exception. The smoky eye and lush lashes are perfect for a night out, and can also be toned down to wear during the day. **We went backstage to get the complete breakdown on the makeup, complete with the exact products used, so you can take it from runway to every day!** Click through our gallery now to get the step-by-step instructions.
